

Chromebook Use Procedures and Information Policy/Agreement

2022 - 2023

The focus of the Chromebook Program at Yantis High School is to provide tools and resources to the 21st Century Learner. Excellence in education requires technology to be seamlessly integrated throughout the educational program. The use of electronic devices provides a simple and portable way to manage information and allows students constant access to learning opportunities. The individual use of technology is a way to empower students to maximize their full potential and to prepare them for college and the workplace.

Learning results from the continuous dynamic interaction among students, educators, parents, and the extended community. Technology immersion does not diminish the vital role of the teacher. To the contrary, it transforms the teacher from a director of learning to a facilitator of learning. Effective teaching and learning with electronic devices integrates technology into the curriculum anytime, anyplace.

The procedures and information within this policy apply to all electronic devices used at Yantis High School, including any other device considered by the Administration to come under this policy. Teachers may set additional requirements for use in their classroom.

Chromebooks will be distributed to students at a time determined by their campus. Parents and students must indicate consent and agreement during registration.

1.2 Chromebook Check-in

Individual school Chromebooks and accessories must be returned to Yantis High School at the end of the school year so they can be checked for serviceability. Students who graduate early, withdraw, are suspended or expelled, or terminate enrollment at Yantis High School for any other reason must return their individual school Chromebook on the date of termination. Discipline issues could result in a device being taken up sooner.

1.3 Check-in Fines

If a student fails to return the Chromebook at the end of the school year, or upon termination of enrollment at Yantis ISD, that student will be subject to criminal prosecution or civil liability. The student will also pay the replacement cost of the Chromebook. Failure to return the Chromebook will result in a theft report being filed with the Yantis ISD Police Department. Furthermore, the student will be responsible for any damage to the Chromebook, consistent with the District's Chromebook Agreement and must return the Chromebook and accessories to Yantis ISD in satisfactory condition.

Student Google Apps for Education Acceptable Use Policy/Agreement

Beginning this month, each Yantis ISD sixth through twelfth grade student will have access to Google Apps for Education (GAFE). The Google Apps "suite" includes Docs, Sheets, Slides, Calendar, Gmail, Classroom and many other collaborative tools. Additionally, this suite of applications is available in "the cloud", which allows our students immediate access to their work, from any device, be it a smartphone, tablet, laptop, or desktop computer.

In order to create a safe, effective way for students and staff to communicate with one another, Yantis ISD issues to each student a GAFE account under the domain @yantisstudent.net. Students access their account using Gmail. Yantis ISD is required by the Child Internet Protection Act (CIPA) to have measures in place which protect students from harmful materials. As such, Yantis ISD takes the following steps with student email usage:

- * Students are only allowed to email staff and other students in the Yantis ISD domain. They cannot send emails to any address that does NOT end in @yantisstudent.net or @yantisd.net. This applies to receiving emails as well. All email to students from outside of the Yantis ISD domain will be blocked.

- * Student email is archived internally, and is searchable by school administrators at any time, should the school deem it necessary.

Yantis ISD also has the duty to abide by the Children's Online Privacy Protection Act (COPPA), which limits companies from collecting personal information from children under 13. To meet this duty, Google advertising is turned off for all Google Apps for Education users, both staff and students. No personal information is collected while students are utilizing the Google Apps core suite which includes Gmail, Classroom, Drive, Calendar, Docs, Sheets, Slides, and Sites. Yantis ISD will act in accordance with the Family Education Rights and Privacy Act (FERPA) and not use the Google Apps for Education suite to publish any confidential student records for online public view. Additionally, parents have the right at any time to investigate the contents of their student's email account, and/or their student's Google Apps for Education files. School staff are responsible for monitoring a student's behavior online during the school day, while parents take over that responsibility at home. Students are responsible for their behavior at all times. Students that adhere to proper use of Google Apps for Education, including email (if applicable), will do so by demonstrating the following behavior:

- * Students will have no expectation of privacy with their Google Apps account, and thus should remain committed to using it academically and professionally.

- * Students will avoid, at all costs, using their Google Apps for Education to promote any unlawful activities or personal financial gain. Additionally, students should not use their account to

promote or spread inappropriate or offensive content, or to threaten another student or staff member.

* Students will not post personal contact information about themselves or other people.

* Students will inform a member of the Yantis ISD staff should they receive any message that is inappropriate or makes them feel uncomfortable.

* Students will be responsible for their own accounts, and will not act in a way that compromises the security of their account. At the same time, students will not act in a way that jeopardizes the account security of another student or staff member.

Access to, and the use of Google Apps for Education is considered a privilege and benefit to students in our school. Yantis ISD maintains the right to revoke the access and use of the Google Apps Suite, including Gmail, where the school has reason to believe violations of law or school policy have occurred. Under normal circumstances, the school will follow the discipline process outlined in the Student Code of Conduct.

Any parents permitting their child to use Google Apps for Education in accordance with this policy/agreement, must read, sign, and return this policy/agreement to the high school office secretary.
